A special mixture for landscape work where large areas are to be planted. The mixture consists of fine Grasses with sufficient domestic Rye and Timothy to insure quick growth and prevent unsightly erosion.		
H. B. Standard	\$4.95	\$23.00
Recommended for general work where a good tough permanent lawn is required. This mixture contains White Clover.		
H. B. Choice Shady	\$7.00	\$34.00
Contains a high percentage of Poa trivialis and Fescues blended with smaller quantities of Red Top and Blue Grass and fast growing domestic Rye Grass which insures a protective cover while the choicer sorts germinate.		
H. B. Regular Shady	\$6.20	\$29.00
We highly recommend this mixture. The formula contains all the ingredients of our "Choice Shady", but is so blended as to insure a somewhat quicker initial growth.
